- Elevator Guards

BESPOKE

SOLUTIONS

WALL & DOOR PROTECTION

ACROVYN®

Acrovyn® products are highly regarded by architects, builders and designers. Here are some the reasons why:

- Renowned for durability
- Wide range of finishes available
- PVC Free - no halogens or other known persistent bio-accumulative toxins
- Superior impact protection
- Environmentally sustainable
- 100% recyclable
- Bespoke solutions
- Hygienic - easy to clean & maintain

HANDRAILS

FUNCTIONALITY

—

SAFETY

—

STYLE

CS handrails serve as mobility aids or protective barriers in hallways.

Numerous healthcare facilities across WA contain CS handrails supplied and installed by ABS West, including Bentley Hospital, Amaroo Aged Care Facility, Fiona Stanley Hospital and Perth Radiology Clinic.

CS handrails are available in a range of materials and a wide selection of colours.

BENTLEY HOSPITAL

HANDRAILS

Approx 500 lineal metres of handrail HRWS-6C installed by ABS West at Amaroo Gosnells

ABS West specialises in timber handrails for curved walls.

McNabb Loop aged care facility in Como.

CURVED HANDRAILS

ENTRANCE MATTING

ABS West offers a range of CS entrance matting systems for both internal and external areas, ranging from moderate to very high traffic areas.

HEEL PROOF

ENTRANCE MATTING

WHY CS MATTING FOR HEALTHCARE?

- HYGIENE:** superior scraping and drying action effectively removes dirt and moisture at the entrance to prevent transference to other areas of the building.
- SUPERIOR ANTI-SLIP PROPERTIES:** reduce the chance of slip incidents on internal floors.
- DESIGN FLEXIBILITY:** bespoke solutions to complement surrounding interiors.
- HIGH ROLLING LOAD CAPABILITIES:** to withstand regular wheeled traffic from trollies, beds and wheelchairs.
- FUNCTION & LONGEVITY:** durable product with long service life which also extends the life of interior floor finishes while minimising maintenance and cleaning costs.

EXPANSION JOINT COVERS

- FLOOR
- WALL & CEILING
- EXTERIOR
- CAR PARK
- FIRE & WATER BARRIERS

Aesthetically appealing covers for structural gaps. Available in a broad range of designs.

Wall Expansion Joint Covers

EXPANSION JOINT COVERS

SSR SERIES
EXPANSION
JOINT
COVERS
USED IN
FIONA
STANLEY
HOSPITAL

The SSR Series Floor Cover, used in Fiona Stanley Hospital, deploys a corrugated extruded aluminium plate providing weight reduction, superior strength and mechanical fastening on the side (no welding). The low friction bearings remove any metal to metal contact and allow for friction free operation.

EXPANSION JOINT COVERS

Royal Melbourne Children's Hospital

1500 METRES
OF
CS EXPANSION
JOINTS
INSTALLED
IN ROYAL
MELBOURNE
CHILDREN'S
HOSPITAL

The CS expansion joints used in Royal Melbourne Children's Hospital benefit from a dual durometer hygiene seal to prevent the problem of dirt and liquids building up inside the expansion joint. The CS Expansion Joints sit completely flush against the floor and walls, helping hospital traffic to move smoothly. The slim-line design unobtrusively fits with interior design requirements. The expansion joints easily meet traffic load and engineer movement specifications.
