Mirvac Head Office

Corporate Headquarters

Description of Project:

Corporate Headquarters

Objective:

Mirvac is known for creating beautiful commercial buildings and residential apartments and their Sydney headquarters are no different.

Mirvac occupies 6 floors of the sustainable 6 green-star building. 200 George Street was conscious of the site where it was built, making use of quarried yellow block sandstone seen in many of Sydney Historic Buildings. The site also embraces natural materials such as wood and stone, giving it a certain warmth.

Therefore the interiors needed to blend with a similar ethos. The earthy tones of everroll® Tone Kush and everroll® Core Mons provided that blend with the added benefits of being hard wearing and having excellent sustainability credentials.

Information at a glance:
