TAFE NSW Western Sydney Institute Nepean Campus Gym

Description of Project:

Nepean Campus Gymnasium

Objective:

WSI Nepean Campus offers excellence and variety in its education and training which meet the needs of about 8000 students.

Given the well-known benefits of exercise to improve students study, WSI Nepean Campus wanted to provide a fitness zone that felt young, stylish and attractive to their students.

The floor needed to be robust enough to handle the impact resistance created by the body builder; while also able to handle the competitiveness of students on the indoor running track.

With the bare brickwork, black & white equipment, and the cooling look of everroll® Palau, a first class gym was forged. Featuring a consistent floor height for safety and ease of flow from the equipment areas to the custom cut line inlays of the running track.

Students leave the gym feeling energised, helping them to improve their attention in cognitive tasks when they hit the books.

Information at a glance:

Location: Nepean Campus
Kingswood, NSW 2750

Contractor: JDC Flooring
