everroll® Intensity Berlin

477 Pitt Street End-of-Trip

Description of Project:

End-of-Trip Facility

Objective:

Above 477 Pitt Street Sydney stands a 32 level office building, below is now known as one of the largest end of trip facilities in Sydney. What was once the old AGL Heritage Gasometer is now one of the most growing facilities for office buildings.

everroll® Core Goa compliments the rustic features of the 1000mm thick Gasometer heritage listed wall, while the everroll® Intensity Berlin lightens the area and complements the exposed concrete ceiling. Rubber flooring can reduce the overall ambient sound, and give greater comfort underfoot to the user.

Information at a glance:

Location: 477 Pitt Street,
Sydney NSW 2000

Architect: John Wardle Architects

Design: Five at Heart

Photographer: Tom D Watson

Regupol Products:
